EDUCATION

M.Sc. Neuroscience

Tel Aviv University
2026 – (incoming)

B.A. Psychology

spec. User Experience

Academic College Tel Aviv-Yaffo
2021 – 2024

GPA 88

SKILLS

PROFILE

UX Designer with a psychology and research foundation. Experienced applying **cognitive and behavioral frameworks** to interaction design — including a concept platform built around human memory mechanics. Capable of owning the full design process from user research through deployed product. Incoming M.Sc. in Neuroscience, with a focus on the intersection of brain science and technology.

EXPERIENCE

UX Designer – Intern

2024

Chasdei Lev NGO

- Led UX research and interface design for a financial management dashboard serving NGO staff, as part of a 5-person cross-functional team.
- Conducted stakeholder interviews to define user needs; translated findings into wireframes and high-fidelity UI screens in Figma.

Operations & Team Manager

2023 – 2025

Shaffa Bar, Jaffa

- Oversaw daily operations of a well-known Jaffa hospitality venue through a challenging market period, managing a team of ~40.
- Coordinated hiring, scheduling, and staff training while maintaining service quality standards.
- Planned and executed large-scale events including live performances and private client events.

Commander – Elite Infantry

2015 – 2018

IDF – Golani Reconnaissance Unit

- Led and trained soldiers in a high-pressure, intelligence-driven operational environment. Recognized for excellence in service.

RESEARCH

UX Design for Trauma Recovery

2024

Psychology Seminar — Academic Course Project

- Designed a mixed-methods study on UX design impact on users under psychological stress. Applied validated instruments (STAI, MHI) and ran statistical analysis in SPSS.
